

Greg Kelley, Vice President

Greg Kelley is co-founder and current CTO of Vestige, Ltd. Greg oversees the day-to-day operations, internal Information Systems infrastructure and engagements being performed by Vestige's analysts as well as handling some of Vestige's engagements himself. Greg has over 15 years of experience working in the computer industry and has been involved in computer forensics since 2001. Greg's previous positions and responsibilities include custom software design and implementation, network management and security, database programming, disaster recovery and end-user support.

Greg has worked on criminal and civil litigations covering areas such as intrusion and incident response, intellectual property theft, fraud and uncovering assets. Greg has testified in State court and Federal court in both civil and criminal cases. Greg holds the professional designations of Encase Certified Examiner and Digital Forensics Certified Practitioner. He is an active participant in the computer forensics industry having spoken at conferences such as Techno Forensics, ISS World, CEIC and PFIC. Prior to Vestige, Greg was a founder in two predecessor companies that performed computer consulting services in the Ohio region. Greg graduated cum laude with a Bachelor of Science in Computer Engineering and a minor in artificial intelligence from Case Western Reserve University.
